WHO WE ARE

COMPANY OVERVIEW

Wire-Not Electrical has been established for over 13 years. We service all areas of South East Queensland. With a large range of services on offer, we can be your one-stop power station for all your electrical service needs. We can handle projects of any size in residential and commercial industries. From a large smart home, offices to restaurants with an extreme amount of detail and planning.

If you have the project, we have the experience and skills to make it all come together. We partner with our clients to guide them in understanding their electrical obligations to ensure they are meeting requirements. We can be on-site to discuss issues or plan electrical work to future proof your business.
